If you can not see Module 6 on AWS

- Run a 'git status' on your terminal in the **normal jupyter** notebook. You will probably see something similar to the screen shot below.
  > Your branch is ahead of 'origin/master' by X commits.
- If you do see then you need to run 'git push' on the **normal jupyter** notebook.
- Then you need to go to **AWS jupyter notebook** and in the terminal under workspace/f18dsa8620_XXX run a 'git pull'

```
[smkn92@europa f18dsa8620_smkn92]$ git status
On branch master
Your branch is ahead of 'origin/master' by 9 commits.
  (use "git push" to publish your local commits)
```
